Experienced fitness and longevity authority. Business, technical, and educational professional with skills and experience in startup development, content design and management, event management, and AI automation and prompt engineering. Founder of a web design business and co-founder of an event management company.

Lifelong learner with an MBA in Marketing, an MA in Instructional Technology, a BS in Systems Engineering, a certificate in Distance Education and multiple course completions on Coursera, EdX, udey and others.

EXPERIENCE

Web Developer / Webmaster (freelance)

CLIKT.com, Remote

March 2007 – Present

- Provide design, development, content management Search Engine Optimization, Search Engine Marketing, and hosting services.
- Utilize WordPress (website design and development), Shopify (e-commerce site design), Lovable (Vibe coding), Feedly.com and Buffer.com (content curation), AI-generation (Claude, Claude CoWork, Claude Code, Perplexity, Nano Banana, oJoy). Websites include:
 - Model Production - Weekly LLM newsletter with news and events, published on Beehiiv.
 - DigitalHumanTrainer.com - Developing interactive personal training platform allowing users to get training plans, log training activities, obtain feedback based on best practices. Currently v0.9 .
 - AutomationTools.xyz – Directory of automation resources: platforms, docs, workflows, news, research.
 - DailySelf - Vibe-coded website focusing on fitness, wellness, and mindfulness.
 - HeritageSites.org - directory of 30+ UNESCO World Heritage Sites including 25 US-based sites.
 - LongevityNews.xyz - Vibe-coded site with news and tips for living longer and better: exploring breakthrough research, understanding aging science, optimizing healthspan, preventing age-related decline, and embracing evidence-based longevity practices.
 - PersonalTraining.news - Vibe-coded website with news about personal training and services.
 - TCI Software.com – WordPress-based website for a national medical software company.
 - gFinity.com - WordPress-based website for a local telecommunications consulting company.
 - MabelDental.com – WordPress-based website for dental laboratory.
 - GatewayTitle.com – WordPress-based website for a local title agency.
 - MTMCoach.com - WordPress-based website for organizational consultants.
 - phytnews.com , FitnessScience.xyz , RunningScience.xyz - Vibe-coded daily news sites for fitness news, science, and insights.
 - CuyahogaValley.com and Jaite.org - Vibe-coded sites for local park resources.
 - CLIKT.com – Created design/SEO organizational site to provide Internet services for businesses.
 - Past web sites: Electrodata.com, AngelAuction.org , MTMcoach.com , GalvinTherapyCenter.com.

Co-Founder

phyt.live, Remote

EDUCATION

Various Online Courses

EdX and Coursera

- Currently enrolled in Introduction to Computer Science and Programming Using Python (MITx 6.00.1x)
- Regularly taking individual courses on a variety of topics including Python programming, AI, Data Science, contact tracing, cryptography, machine learning, and web development.

Course: Blockchain Technologies: Business Innovation and Application (2018)

Massachusetts Institute of Technology - Sloan School of Management
Cambridge, Massachusetts (online/GetSmarter)

- The course covered blockchain technology, outlined the possibilities and limitations of blockchain technology, and evaluated implications and how to propose a blockchain-based solution to address a business problem.

Course: Data Science: Data to Insights (2017)

MIT Digital Program/MITx, Massachusetts Institute of Technology
Cambridge, Massachusetts (online/EdX)

- A six-week online course focusing on analytics. Topics included Making Sense of Unstructured Data, Regression and Prediction, Classification, Hypothesis Testing and Deep Learning, Recommendation Systems, and Networks and Graphical Models.

M.A. Educational Foundations and Leadership emphasizing Instructional Technology (2008)

College of Education, University of Akron
Akron, Ohio

- The curriculum included various technology management, instructional design and software application courses.

Various Courses: Internet Business and Technology (2001-2004)

University of California Berkeley Extension, University of California-Berkeley
Berkeley, California (distance learning program formerly Electronic Commerce)

- Distance learning program covering the business and technical issues of Internet technology.

Certificate: Distance Education (2003)

University of Wisconsin-Extension, University of Wisconsin-Madison,
Madison, Wisconsin (distance learning program)

- Program curriculum covered aspects of distance learning including teaching, learning, technology, instructional design, evaluation, learner support services, and management of online courses.

M.B.A. Concentration: Marketing (1988)

Weatherhead School of Management (WSOM), Case Western Reserve University
Cleveland, Ohio

- Graduate assistant for WSOM Banking and Finance Department, aiding in faculty research projects, including comparative studies of financial institutions and analysis of the prime rate.

B.S. Major: Systems Engineering (1987)

Case Institute of Technology, Case Western Reserve University
Cleveland, Ohio

- Senior project detailed the use of image processing algorithms to compute frequency information of tactile sensor data using two-dimensional Fast Fourier Transform (FTT) and other mathematical transforms.
- Results were published in IEEE Transactions on Robotics and Automation:
Jurczyk, J., & Loparo, K. A. (1989). Mathematical transforms and correlation techniques for object recognition using tactile data. *IEEE Transactions on Robotics and Automation*, 5(3), 359–362.

PERSONAL INTERESTS

- Fitness: Running and ultramarathoning (distances more than 26.2 miles): completed 135 marathons and 68 ultramarathons.
- Technical: vibe coding, AI automation, news sites, AI tools.
